

Hacker Hunt Rule Book

1. Event Overview

Hacker Hunt is a cybersecurity competition where teams of ethical hackers will attempt to access a designated server using various cyber tools and techniques. The event is designed to test participants' problem-solving skills, knowledge of cybersecurity, and ability to perform under pressure.

2. Team Composition

- Each team must consist of **exactly 3 members**.
- Team members cannot be changed once the event starts.
- Participants must register their teams before the event.

3. Event Structure

- The event consists of **one round lasting 3 hours**.
- Teams will be provided with **server details** and other necessary information at the beginning of the event.
- Participants can use any **legal cybersecurity tools and ethical hacking methods** to access the server.
- Teams must follow **ethical hacking principles** and should not attempt to disrupt the event environment or attack other teams.

4. Judging Criteria

Teams will be evaluated based on:

1. **Performance:** The effectiveness of the methods used to access the server.
2. **Time Taken:** The faster the team gains access, the higher the score.
3. **Efficiency & Approach:** The use of optimal tools and strategies.
4. **Ethical Conduct:** Any violation of ethical guidelines will lead to disqualification.

The final decision rests with the **judging panel**, and their verdict is **final and binding**.

5. Rules & Regulations

- **Strictly Ethical Hacking:** Participants must adhere to ethical hacking practices. Any malicious activity will result in disqualification.
- **No External Assistance:** Teams cannot seek outside help or collaborate with other teams.
- **No Disruptions:** Attacking event infrastructure, other teams, or unrelated systems is **strictly prohibited**.
- **Use of Pre-Approved Tools:** Teams can use cybersecurity tools of their choice as long as they comply with ethical hacking norms.
- **Respect Event Duration:** The competition ends after 3 hours, and no extra time will be given.
- **Server Confidentiality:** Participants must not share event-related credentials or server details outside the competition.

6. Disqualification Criteria

A team may be disqualified if they:

- Engage in **unethical hacking practices**.
- Attempt to **damage or disrupt** the event infrastructure.
- **Collude** with other teams or external parties.
- Fail to comply with the **rules and regulations** set by the organizers.

7. Prizes & Recognition

- The **winning team** will be determined based on the judging criteria.
- Prizes and certificates will be awarded to the **top-performing teams**.
- The decision of the judges is **final and cannot be challenged**.

8. Miscellaneous

- Participants must bring their own **laptops and necessary software**.
- The organizers hold the right to **modify the rules** if necessary and will inform participants in advance.
- By participating, teams agree to **follow all rules** and accept the final judgment without dispute.
